REVOLUTION AND ITALIAN THREATS HANG OVER ATHENS

ROME TO APPLY THUMB SCREWS IF DEMANDS ARE REFUSED. LEAGUE SNUBBED Mussolini Holds International Body Incompetent to Deal with Issue.

Home—A counter revolutionary movement is under way in Greece, says a dispatch today. The movement is gaining ground despite drastic measures taken by the government, including the immediate arrest of all suspects and the confiscation of arms, the dispatch says. The followers of the late King Constantine's party are said to be preparing for action.

MUSSOLINI DECLARES LEAGUE IS INCOMPETENT. [BY ASSOCIATED PRESS.] London—A Central News dispatch from Rome today says that Premier Mussolini specifically has instructed Italian delegates to the League of Nations that he has absolutely determined to maintain his position that the league is incompetent to deal with cases in which the honor and prestige of Italy are concerned.

ITALY WILL MAKE TERMS. [BY ASSOCIATED PRESS.] London—Italy will make terms for the evacuation of Corfu more onerous if Greece delays in fulfilling the terms of its ultimatum, Premier Mussolini told the cabinet today, the dispatch says.

WILL WITHDRAW IF LEAGUE IS INCOMPETENT. [BY ASSOCIATED PRESS.] London—An exchange telegraph dispatch from Rome today says that if the council of the League of Nations asserts its competency to deal with the Greece-Italian controversy, Italy will withdraw from the league.

CHINESE MEET AT MADISON

Famine Added to Earthquake, Fire, as Horror Grows

BULLETIN Harbin, Manchuria.—The loss of life in Tokio is estimated to be 300,000. The flames of the blazing capital have been visible for 200 miles. According to reports received here, the earth shocks are continuing, while a volcano 40 miles from Tokio is still active. The river Sumida has changed its course through the stricken city.

[BY ASSOCIATED PRESS.] Virtual destruction of Tokio and Yokohama are reported in the first direct communication received from Tokio by the outside world since earthquake and tidal wave, followed in places by fire, laid waste a section of Hodo, chief island of Japan last Saturday. The communication was from an Associated Press staff correspondent.

The first comprehensive view of the havoc wrought was received in cable advices from Osaka. It appears from these that the disaster is greater than previous reports have indicated. The ministry of marine estimates the dead in Tokio alone at 150,000; the best estimates place the dead in Yokohama at 100,000; virtual destruction of Nagoya, town of 60,000, is reported; and Yokosuka, a town of 70,000, is said to have been wiped out by the successive attacks of earthquake, tidal wave and fire.

Great damage has been done in the summer resort sections about Hakone and on the Izu peninsula. Monetary loss in Tokio alone is placed at five billion yen (\$2,400,000,000).

Martial law is effective in the stricken cities; none may enter without the most urgent reasons or without carrying their own food supplies. More than 3,500,000 bushels of rice are being rushed from southern Japanese ports and from Korea to the stricken regions.

The death or injury of several members of the royal houses is feared, though the emperor, empress and prince regent are safe.

Reports that the new premier, Count Yamamoto, has been assassinated are current, but there is little confirmation for any stronger statement than that he was attacked and the attacker's aim frustrated. The attack is said to have been made at a meeting in the club where a number of statesmen were forming the new cabinet. The floor collapsed and the premier was injured, but the meeting was continued in an adjoining building and its business completed. Viscount Takahashi and 15 others are reported to have been killed while attending a party meeting.

The American, French and Italian embassy buildings have been destroyed, as has the Chinese legation. Several islands, including Enoshima, noted beauty spot and one of the Bonin group, on which is the Japan end of a trans-Pacific cable link, are reported to have disappeared below the surface of the sea, but there has been no confirmation of this.

Communications are at a standstill. It is expected it will be at least a month before the Tokaido line, running from Tokio to Kobe, will be in operation again. This line apparently suffered most. Airplanes are being used to carry official messages from Osaka to Tokio.

Two of the ships in Yokohama harbor when the tidal wave struck have been heard from. A number of naval vessels at Yokosuka, the naval base, were driven ashore by the tidal wave and some are said to have suffered explosions in their magazines.

There have been explosions of oil storage tanks at Yokohama and of gasoline storage tanks at Tokio, great damage resulting.

More than 200,000 houses have been destroyed in Tokio, it is estimated. Two years or more will be required to rebuild the city.

JAPANESE GOVERNMENT FACING THREE PROBLEMS

Osaka.—The Japanese government is boldly facing three gigantic problems arising out of the greatest disaster in the history of Japan.

The first is that of providing food, shelter and clothing for more than two million people in Tokio and for many additional millions in the other cities and districts affected. The emergency commandeering act will enable the authorities to requisition the necessary supplies and labor.

The second problem is that of maintaining peace and order in Tokio and other cities where already looting and violence are reported. Martial law has been invoked and other military measures have been adopted to cope with the situation.

The third problem is that of reconstructing the cities, the railways, roads and telegraph and telephone lines. It is estimated that at least 1,000,000,000 sterling will be required for this work.

RIVER CLOGGED WITH BODIES OF VICTIMS

Tokio.—Innumerable bodies of the earthquake victims are clogged in the river Sumida which flows through Tokyo. Thousands of frenzied men and women, overcome with excitement and fatigue went mad and threw themselves into the river when the shocks were occurring. Thousands of others perished when the bridge across the Sumida river collapsed.

GREAT EXPLOSION AT HOT SPRINGS RESORT

Osaka.—A great explosion has occurred at Owakidani in Hakone, one of the hot springs of Japan, located about fifty miles from Tokio. Reports from witnesses at Hakone say the earthquake left no houses standing at Miyashita, the fashionable mountain resort 45 miles south of Tokio. The famous Fujiya hotel was destroyed.

U. S. IS WATCHING TEST OF LEAGUE IN MEDITERRANEAN

ITALY'S REFUSAL PUTS BODY IN BALANCE BEFORE WORLD. GREECE APPEALS Rome Seeks to Shelve Issue as League Matter on Technical Point.

[BY DAVID LAWRENCE.] Copyright, 1928, by Janesville Daily Gazette.

Washington—Italy's refusal to permit her controversy with Greece to be considered by the League of Nations at Geneva, on the ground that the present Greek government has not been recognized by the powers as legal need not prevent the league from assuming jurisdiction. This is the view taken by those who have studied the covenant of the League of Nations, particularly the famous article 11, which was so often interpreted by President Wilson in his speeches as giving a nation the right to bring to the attention of the league any dispute in any part of the world likely to affect the peace of the world whether

MISSIONARIES OF BAPTISTS THOUGHT SAFE

New York—All Baptist missionaries in Japan are believed safe, according to a cablegram received today by the American Baptist foreign mission society from Charles B. Tenny, secretary of the Japan Baptist mission.

GAZETTE FUND FOR JAPAN

Janesville will do its part toward aiding the stricken Japanese nation. A fund will be collected and handled through the Red Cross. The Gazette will receive contributions and has given \$25 as a start for the fund. It does not make any difference about the size of the contributions. If you want to contribute send it to the Gazette and it will be forwarded through the proper channels to the sufferers. No nation in the world is in position to give aid to Japan at this time to such an extent as the United States. It will aid in cementing the ties of a friendship which will forever efface the possibility of war or rumors even of war with the Orient. What is done should be done quickly.

YOKOHAMA DESTROYED BY QUAKE

President Coolidge Calls for Sympathy and U. S. Aid

Washington—President Calvin Coolidge issued the following proclamation to the American people: "To the People of the United States:

"An overwhelming disaster has overtaken the people of the empire of Japan. While its extent has not as yet been officially reported, enough is known to justify the statement that the cities of Tokio and Yokohama and surrounding towns and villages have been largely if not completely destroyed by earthquake, fire and flood, with a resultant appalling loss of life and destitution and distress, requiring measures of urgent relief.

"Such assistance as is within the means of the executive department of the government will be rendered but, realizing the great suffering which now needs relief and will need relief for days to come, I am prompted to appeal urgently to the American people, whose sympathies have always been so comprehensive, to contribute in aiding the unfortunate and in giving relief to the people of Japan.

"In order that the utmost co-ordination and effectiveness in the administration of relief funds can be obtained, I recommend that all contributions be sent to the committee in charge of the American International Red Cross at Washington or to the local Red Cross chapters for transmission to Japan."

PURNELL HIDDEN IN COLONY, BELIEF

Detroit—Belief that Benjamin Purnell, missing leader of the House of David colony of Benton Harbor, Mich., is hidden in the colony, was expressed today by Gladys Bamford Rubel, who recently swore out a warrant charging him with a statutory offense and then went into hiding. Mrs. Rubel, with her baby, were found living in Ft. Wayne, Ind. She explained her disappearance by saying she had been told and would be put in jail "for safe keeping" to be ready to testify against Purnell, if he is found.

AMERICAN RELIEF FOR STRICKEN JAP CITIES UNDER WAY

ARMY AND NAVY HURRY FOOD AND SUPPLIES TO NIPPON. RED CROSS LEADS Contributions, Called for by President, to be Handled by Organization.

Janesville and Southern Wisconsin people generally will be able to give aid to the Japanese stricken by earthquake and related disaster through the Janesville Red Cross. President Ira Wierschke called a meeting immediately following the receipt here of the proclamation of the president, and arranged with Secretary Hattie Alden to have contributions made at the Gazette office and banks of the city.

Such aid should be made immediately if at all, and the funds made available for the Central Division at once. The Red Cross headquarters has already given \$100,000 and other sums will follow. This is the greatest of the world's disasters in loss of life and property, and a friendly nation is suffering. That is where the Red Cross has always been a powerful help, and it will not fail and the people of the United States will not fail at this time.

BULLETIN

Washington—Inauguration by the American Red Cross of a five million dollar campaign for relief of the Japanese earthquake sufferers was announced today by Elliott Wadsworth, treasurer of the organization, after a conference with President Coolidge, Secretary Hoover and Japanese Ambassador Hamihira.

President Coolidge was said at the White House to be determined that the United States government should put all its resources at the disposal of those endeavoring to afford relief to the Japanese people.

Washington—Officials here were preparing to press forward today their plans for extending every possible means of American aid to the earthquake sufferers of Japan on re-

U. S. Consul at Yokohama Dead; Confirm Report

[BY ASSOCIATED PRESS.] Washington—All members of the American embassy staff at Tokio are safe.

Ambassador Woods advised the state department today, in the first message received from him since the earthquake, that none of the embassy staff was injured, although all embassy buildings were totally destroyed.

The ambassador said the food situation was very acute and asked that rations be sent at once from the Philippines.

Consul Davis confirmed that Max D. Kitchinoff, American consul at Yokohama, and his wife, are dead. Consul Davis' dispatch, dated at noon today, and based on information received from the steamship President Jefferson, said:

"Yokohama completely wiped out by earthquake and fire. Tokio and Yokosuka also reported destroyed. Nipponaichi and Hakone also destroyed. Admiral Oriental line office ruined, everything lost, all employees safe."

"Do not accept traffic for Yokohama, but route all ships there to render all possible assistance to give supplies; returning Kobe with 350 destitute refugees sailing Kobe Seattle direct soon possible."

"Baler (unidentified) last seen Grand hotel, whereabouts unknown. Ackerman (believed to be Representative Ackerman of New Jersey) unknown."

"Esling (unidentified) and wife safe aboard. Fires are still burning. 'United States consul at Yokohama and wife, dead."

"All houses on bluff and Grand hotel, Oriental are gone."

"Suggest Asiatic fleet send fast ships at once. Relief urgently needed. Doctors, nurses and medical supplies. 'Publish a navigation warning, all ships leaving. Lights approaching Yokohama are all out north of Nikimoto except Ashita. Unsafe approach inside breakwater Yokohama. Bottom came up."

All members of the staff of the Admiral-Oriental line in Yokohama are safe, according to a cablegram received at headquarters of the company from Shanghai.

SHAM BATTLE ON LAKE FRONT FOR G. A. R. VETERANS

TROOPS, PLANES AND SUB CHASERS WILL TAKE PART IN FRAY. PLAN FOR MARCH Milwaukee Given Over to National Encampment; Entertainment Tuesday.

BULLETIN

Milwaukee—Politics found its place in the annual encampment of the national G. A. R. here today, when three candidates for commander in chief declared themselves in the running to the G. A. R. convention at the Milwaukee Convention Center, which will open tomorrow, when pastors will assemble at the Methodist church and the lay members at the Masonic temple.

[BY ASSOCIATED PRESS.]

Milwaukee—Take trips, a little business and an evening of entertainment marked the activities of the members of the G. A. R. and auxiliary bodies in annual convention here today.

During the morning committees met for a short time, but adjourned before noon to enable their members to board the Christopher Columbus, one of the largest pleasure boats on the lakes, for a swing out through the bay. The Christopher Columbus is scheduled for five trips during the day.

The heaviest convention work of the day is scheduled for 3 p. m., when the various commanders will report to chief of staff, George A. Hosley, for parade instructions. All Well Housed Every veteran was supplied with comfortable sleeping quarters last night, the housing committee reported, and arrangements have been made which will assure any late arrivals of accommodations.

James H. Williamson, secretary of the encampment committee said enough homes have been opened to the delegates to insure every comfort while here. Whenever it is necessary to assign a veteran to a home a considerable distance removed from the downtown section, arrangements have been perfected for his transportation to and from headquarters by automobile.

A special appeal has been made to automobile owners for transporting the veterans to tonight's lake shore entertainment.

Gen. Helmstret Pleaded E. B. Helmstret, adjutant general of the Wisconsin department, said this morning that the strength of arriving contingents gave indications that 1,100 G. A. R. members from the state would be during the Wisconsin National guard, fully equipped, will demonstrate the usage of modern every headquarters," Mr. Helmstret declared.

Wisconsin officers arrived at 5 p. m. yesterday and were met by an escort of honor. The life and drum corps headed the procession to their headquarters hotel.

Girl Reserves Help Teachers Obtain Rooms

Four committees of Girl Reserves assisted new teachers in the search for rooms, Saturday. Rooms listed in the Y. W. C. A. registry were visited by teachers in company with Girl Reserves which made looking for a location in a strange city quite easy. Emily Sheldon directed two committees, while Dorothy Reeder and Ruth Fisher each had charge of the work of one committee.

The publicity committee will meet at the Y. W. C. A. Tuesday night to plan for the next edition of the Y's Owl which is to come out.

The fall meeting of the board of directors will be held next Monday night. Miss Marion Hamlen, general secretary, will leave for her vacation, next Tuesday.

Capacity House Attends Reopening of Myers Theater

After four months in darkness, the Myers Theater opened its doors Monday night and a crowd filed in that filled every seat and demanded to be allowed to stand to watch the performance of "Alias Nora O'Brien," by the Beach-Jones stock company.

There were a few times in the last few years that such a large audience watched a production at this theater. Scores were turned away as the curtain went up. Allen Marsh, a former Milwaukee and Monroe man, is the new manager.

The Beach-Jones company, with Gladys Sitzer as the star, gave a performance as good as any stock company performance ever seen here. It was a more than satisfying entertainment, made so by an excellent cast, each member fitting into his or her part, by better scenery than the company has had, and good vaudeville entertainment between acts.

As Lady Constantine "Arty, alias Nora O'Brien," "The Little Redhead," Gladys Sitzer kept the audience in giggles and downright laughs. Her characterization was good.

Attractions such as "Nice People," "Welcome Stranger," and "The Bird of Paradise" are being looked forward to. "The Bird of Paradise" is the feature of the week-end.

The entire New York show being given.

NEW TEACHERS LISTEN TO HOLT

Board Will Entertain All Teachers at the Country Club Friday.

"It is your philosophy of education that will serve as the basis on which your efficiency as a teacher in the Janesville public schools will be judged," said Supt. F. O. Holt, Tuesday afternoon, when addressing the new teachers who had arrived here to begin their year's work. Mr. Holt began his talk to new teachers by saying the very fact that they had been employed to teach in Janesville was a compliment to them. They were well qualified as far as professional training is concerned. It was also assumed, he said, that all have come here prepared to give their best.

Teaching Involves Fine Things

In discussing the kind of philosophy that makes for efficient teaching, Mr. Holt said that it involved five things as follows. First, a healthy spirit of optimism which is bound to be imbued by the pupils; second, sympathy for circumstances which often require the doing of things that may be regarded as unorthodox; third, a willingness to make the individual viewpoint subservient to the more inclusive views of those in charge of school administration for the entire system; and a proper sense of relative values, which enables one to avoid worry or quibbling over inconsequential matters; fourth, a proper conception of the inspirational duty of the teacher, which is after all more important in the lives of the pupils than getting across a certain amount of technical knowledge; fifth, a pioneer spirit which enables one to regard new methods with sympathy.

General Teachers Meeting

Following the meeting of new teachers, a general meeting of the entire teaching force was held. At this meeting, Mr. Holt announced that instead of appointing a committee of teachers to plan for a common action, he was pleased to extend on behalf of the board of education an invitation to be their guests at the Country Club, Friday night at 8 p. m.

The invitation was extended by the superintendent at the request of Mrs. Sutherland, president of the board, who was unable to be present.

Introductions of school executives were a feature of the general meeting, after which separate meetings were held for grade and high school teachers respectively. All meetings were characterized by a fine spirit on the part of those present.

PRINCE MATSUKATA VICTIM OF QUAKE

Famous Japanese Financier and Former Premier Dies of Injuries.

(By Associated Press.)—Nagasaki. The death of Prince Masayoshi Matsukata, former premier and minister of finance, is reported here. A message to the Nagoya railway bureau says that the prince died from the effects of injuries sustained in the earthquake.

Prince Matsukata, one of the few remaining Japanese genro or elder statesmen, was the founder of Japanese finance. He was a member of the ancient feudal clan of Satsuma from whose descendants spring the greater number of officers of the Japanese navy. He was born in February, 1856.

It was Matsukata who opened Japanese legations at New York, London and Lyons, the largest markets for Japanese exports at the time. He inaugurated the system of foreign export exchange as a means to encourage Japan's exports and to absorb specie from abroad.

Matsukata's second ministry, in 1890, again emphasized his right to be called the founder of Japanese finance for he established a system of gold standard for the empire. He was finance minister in the succeeding Yamagata cabinet and in 1902 traveled extensively in the United States and Europe. He was made marquis for meritorious service during the Russo-Japanese war.

warfare in an attempt to prevent the landing of Japanese boys and men, which arrived here today for the "invasion."

Eight ships will whirl above the battle grounds, four on each side, dropping bombs, and trying

for the advantage in the air while the artillery companies will attempt to keep the invading forces at a distance from shore.

Both sides will be armed with machine guns for short range work.

In addition to the modern warfare, the days of the civil war will be depicted in a display of fireworks.

The location on the lake shore is ideal for the accommodation of what is expected to be the largest gathering in the city's history. The edge of Juneau park, ranging along the lake shore for a mile, has been selected for the display.

WHITEWATER

MISS ALICE MARSH. Phone 222-12.

Whitewater — The Aokiya camp fire girls were guests of two members, Misses Ruth Brady and Margaret, who are at the Brady home, Wednesday night. The guests of honor were Miss Cordia Shetter, who has been their guardian, and Mrs. E. H. Olson, who is taking up the guardianship as Miss Shetter is to teach at Randolph. The luncheon was prepared entirely by the girls, who are earning money in various ways. The place was very unique. No names appeared on them, but the Indian symbols representing their Indian names were painted on their faces, each in a different way. The symbols used in her head band and ceremonial gown. Miss Brady, the mascot, was also present. The girls have received profitable instruction under Miss Shetter and are anticipating an enthusiastic year's work under Mrs. Olson's management. The former presented in girls with her photograph when they were her guests recently.

The city schools opened Monday. The high school has been extensively renovated and a large attendance is expected.

W. S. Watson and family have returned from their auto trip and covered about 3,000 miles. They left Chicago for Washington, D. C., and found one stretch of federal pavement 500 miles in length. They were in Washington at the time of the signing of the new treaty. Their trip, northward, included stops at Philadelphia, New York, Boston and Portland.

The American Legion is planning to hold another round-up in the city park soon.

Miss Cordia Shetter has gone to Randolph, Wis., to teach commercial work.

At the Theatres

AT THE BEVERLY

"Hollywood" which opened at the Beverly theater Sunday and will remain through Wednesday night is one of the best pictures that has been cranked up to be. It was advertised that 50 Paramount stars would be seen. Any man enough to count them doesn't deserve to enjoy a picture, and besides, he would doubtless find himself bored if he tried to prove there are less than 50 stars; for it seems there are many more. Any way all are well known.

The story is of the girl who is told by her home-town people that she should be a star. She is of the same old-fashioned type but finds things in Hollywood not what they are painted. It is amusing when grandpa makes a big hit in the movies. When grandpa and auntie and the girl's sweetheart are all asked to sign contracts, "that makes it unanimous" she says when they come later for her twin babies and her father to appear before the camera.

Hope Down plays the part of Angela Whitaker with sincerity. She is not beautiful but is perfectly into the part. One of the most unusual scenes ever made is Lem's dream of a wild and improbable Hollywood. The first of the "Fighting Blood" stories is an added attraction and is interesting.

AT THE APOLLO

For colorful romance of days gone by, and for the real out of doing things, gives confidence in the movie, "The Bright Shawl," now at the Apollo, has seldom been excelled. It is a bright spot among the many dull and lifeless motion pictures of the present day.

Joseph Borgschneider wrote the story of the same name. That, too, had color and excellent character portraiture. By following the story closely and selecting such stars as Richard Barthelmess and Dorothy Gish to play the leading parts, both of these great qualities have been retained in the motion picture.

The picture's locale is Cuba, where the movie company went to make authentic scenes. The time is of Spanish oppression in Cuba, and the story tells of a young American who goes there to help the Cuban people. He falls in love with Le Clavel, the dancer, he learns many secrets from her and learns to love her. He gives her life to help him triumph and in the end he wins the girl he has really loved.

U. S. IS WATCHING TEST OF LEAGUE IN MEDITERRANEAN

(Continued from Page 1.)

It was between a member of the league and a non member, indeed, Lord Robert Cecil, on his recent visit to the United States, declared that under article 11 the reparations dispute could be considered but that, of reference to the wishes of France, the controversy had not been taken up because the parties involved were not ready to discuss the matter by direct negotiation between governments.

Appeals to League

In the present case, one of the two parties to the dispute actually appealed to the league, which cannot say it will keep hands off out of deference to Italy without seeming to take the side of Italy. The question of whether the present Greek government has the right to appeal to the league is not considered pertinent here for it is pointed out by international lawyers that the Greek membership in the League of Nations is not a membership of any particular administration or regime.

It is not a membership in other words the Greek nation enjoys the membership to the fullest extent irrespective of the existing type of government in Greece. Nations do not lose their treaty right simply because of an internal revolution or domestic disturbance. Ample precedent is afforded in the case of the United States and Mexico. No recognized

government has existed in Mexico for several years but the United States has insisted upon protecting American property rights under earlier treaties made between the Mexican people and American people.

Would Shelve Issue

The general feeling here is that Italy has seized upon the pretext of an unrecognized government in Athens as a means of shelving the issue so far as the league is concerned. It involves the acid test of the league's real strength. Should the league of Nations accept the Italian interpretation and keep hands off, article 11 of the covenant will become a dead letter and faith in the league itself will be lost by many of its warmest supporters. Should the league, on the other hand, step in, and call Italy to task for violating the Versailles treaty—as the covenant is an integral part of the league—the prestige of the Geneva institution will rise considerably. The main value of the league which has been admitted by its staunchest opponents has been that part of the Versailles covenant which makes it obligatory for any nation having a dispute with another to wait at least three months before beginning hostilities. The belief was that during the three months inquiry a peaceful solution would be devised, especially as national passions would be expected to subside during the waiting period.

New "Scrap of Paper?"

The doctrine of a cooling off spell was promulgated by Secretary of State William Jennings Bryan in 30 treaties between the United States and all the important powers of the world except Turkey, Spain, Germany and Mexico. There never has been an important test of the principle until the present outbreak of hostilities between Greece and Italy. The question now being asked is whether a nation, in time of excitement over a massacre of its citizens, would be likely to care any more for treaty obligations than did Germany when she made a "scrap of paper" of her treaty with Belgium in 1914.

Watch League Test

While the United States government is not taking any part in the

effort to bring Italy and Greece together, the authorities here are watching to see whether the mediation of the League of Nations will be successful. If it is not there is nothing to prevent the department of state through American ambassadors abroad from exercising good offices in an attempt to bring about a peaceful settlement.

The Italian government just now is very anxious to be on good terms with Washington and might be more willing to listen to a voice from afar than a European intermediary. The next few days will decide whether the old fashioned diplomatic intervention is to be of any avail.

NEW NAVAL AIR MONSTER.
By FREDERICK J. HASKIN.
Washington.—With favoring weather conditions the first trial flights of the United States Navy's new air monster, the ZR-1, will be made this month, and if the hopes of the builders are realized and the plans of the operators do not go awry these flights will be extended gradually until within a few months every important center in the United States will have been visited. Later a flight to the North Pole regions may be undertaken.

Fate gave the word—the waiting soul triumphantly departed.

Add to the true, the brave, the bold.
The mighty, the immortal.
And though we grieve, there's joy untold.
Beyond the shining portal.
Death but removes the soul from clay.
The soul unchained, undaunted,
He soon forgets the petty fray.
Where yon foemen taunted:
His words shall mould the minds of men.
And, blessed on history's pages,

If We Were in the League?
Italy and Greece both are members of the League of Nations. Greece has appealed to the league to save her from the attacks of Italy and asked that this congress of all the European powers, save Germany and Russia, settle the differences which have arisen between the Hellenic nation and that of Mussolini, the dictator. Signor Mussolini says he will abide by no decision of the league. Either then the league arrives at an impasse or it must apply force. Here then comes the famous Article X which ended any possible hope here in America that we would join the league.

When we are told that the ZR-1 is 550 feet in length and that the hull has a diameter of 79 feet with a total gas capacity of 2,115,000 cubic feet, we know that she is big, but as to just how big the mind remains a bit hazy.
When we are informed that the Lakehurst hangar's inside dimensions are, roughly, 800 feet in length by 250 feet in width and 170 feet in height, we know that it is immense, but the figures still leave us with only a vague idea of what they mean.

Q. How many packing processes does cotton go through and to what density is it compressed?
A. A usually packing processes are employed, but in a few cases only one is used. Ordinarily the cotton is first put through the cotton baling press at the gin; this packs the cotton to a density of 16 to 18 pounds per cubic foot. It is then sent to the railroad compress where it is compressed to a density of about 28 to 32 pounds per cubic foot. It is then packed in bales for shipment or export. Sometimes a special compress is used in connection with the baling process, with which the cotton is packed at the gin to a density of about 20 to 22 pounds per cubic foot. No further compression is required even for export.

Article XI provides that any "threat of war, whether immediately affecting any of the members of the league or not is hereby declared a matter of concern to the league." Then it may take any measures it may deem wise and effectual to safeguard the peace. Article X provides that the territorial integrity and existing political independence of all members of the league are guaranteed. Then we get to Article XVI wherein it declares that "Should any member of the league resort to war in disregard of the covenants under previous articles, it shall, ipso facto, be deemed to have committed an act of war against all the other members of the league, which hereby undertake immediately to subject it to the severance of all trade or financial relations, the prohibition of all intercourse between their nationals and the nationals of the covenant-breaking state, and the nationals of any other state, whether a member of the league or not."

Or, again, we are told that the cloth used in the construction of the ZR-1 would make a tent measurably larger than the biggest circus tent that was ever set up. That will mean something to the boys to whom the main top of the circus is still the biggest thing in the world. And then it is stated that there are forty miles of wire in the air monster. That may not convey so much of a picture, but we all know that it is a lot of wire.

Who's Who Today
SENOR TEIXEIRA-GOMEZ
When Senor Teixeira-Gomez was elected President of Portugal on Aug. 6, he was still the Portuguese Minister at London. He will not leave London until Sept. 15 and will not be inaugurated until Oct. 5.
He has represented his country at the Court of St. James since 1911, and during the negotiations that brought Portugal into the World War. In an interview he said:
"One would think that they had a revolution there every eighth day. This is not so. There are, to be sure, dissensions and uncertainties. My policy will be, in an attempt to bring the conflicting parties together on the common basis of the welfare of the republic."
The new President has written books and collected curios. Until the revolution of 1910, which turned the monarchy into a republic, he lived on his parents' estates in the country. His grandfather had been a liberal and had suffered for them.
His father was educated in France, and from him the future president got his republican leaning. Senor Gomez was dividing his time among farming, writing and collecting when the republic sent him to London as its first Minister.

Horoscope
WEDNESDAY, SEPTEMBER 5, 1923
Astrologers announce that this day should be very favorable for love affairs and social entertainments of every sort. Saturn, Neptune and Venus are in benefic rule.
During this sway women are supposed to be able to make the best of the situation on men, even the most sophisticated and being easily won, many aged persons will be inclined to bestow their fortunes on the young and for this reason many marriages and divorces may be numerous. This should be a lucky day for all interested in oil production. All sales of land while this configuration prevails should be very fortunate.
One of the signs of times that are to be exceedingly difficult will be a new wave of romance which will precede a period of national strain.
The president of the United States is to meet severe tests of statesmanship. The Coolidge administration will be tested before the next national election.
Again attention is called to the prophecies that the new era would eliminate men and women leaders in world affairs and replace them with persons much younger than the average that has prevailed in the past. The seers' prophecy that with the coming of middle age assume supreme responsibility and will take counsel of their elders and that such counsel will be needed.
The total eclipse of the sun Sept. 21, 1925, will have a special influence on the Pacific coast and will be precursor or dramatic events for California, the seers foretell.
The line of central eclipse runs through Mexico and Central America, where the principal sinister effects will be registered.
Persons whose birthdates it is may expect an active year with success in financial affairs, but they should not be too indulgent to the young from whom letters asking loans may be numerous.
Children born on this day may be energetic and active, but inclined to dodge the facts of life. These children will have a special influence on the financial affairs, but they should not be too indulgent to the young from whom letters asking loans may be numerous.

Then it goes on to recount what the duty of the Council of the league is in reference to apportioning what nations shall supply in the way of effective military and naval forces to carry out the findings of the league. In other words to say what nations shall go to war with Italy if Italy refuses to abide by its decision or makes war against the desires of the league. So far Italy has indicated that she had no intention whatsoever to abide by any league decision or to permit her case against Greece to be presented to the league.

The official name of the ZR-1 in naval aviation circles will be Fleet Airship No. 1, and her function will be that of long distance scouting in conjunction with fleet maneuvers. She was built at the naval aircraft factory in Philadelphia, the parts being shipped to the station at Lakehurst where they were assembled.
This country was to have had three ships of this type, the others being the ZR-2, which is now being completed in Germany and is to be turned over to Uncle Sam in settling war claims, and the ZR-3, which was purchased from the British and which, on her first flight, met with the tragedy that shocked the world. The last named was the largest of the trio, with a gas capacity of 2,700,000 cubic feet, while the German-built ship is somewhat larger than the one now being tried out at Lakehurst, having a gas capacity of 2,400,000 cubic feet.

Italy has openly asked that she be given the Greek Islands in the Ionian sea at the entrance to the Adriatic. Her first move was to take one of these, the Isle of Corfu, the Gibraltar of that locality. Mussolini, undoubtedly contemptuous of the league, has snapped his fingers at all outside interference and behind him is the entire United Italy which he rules with an iron hand. Against the Italian army and navy, Greece, worn out and financially impotent, is powerless. The time for the League of Nations to have acted has passed. There was but one great opportunity for the league and that when the Turks, (a non-member nation), were making ducks and drakes of Grecian and Christian hopes for a better condition in the Near East. Failing there, the league has passed from the world's action except as an expensive piece of diplomatic bric-a-brac.

Living quarters for the officers and crew are situated on the keel inside of the hull, where a runway 600 feet long is divided into messing and sleeping apartments. Cooking is done on special stoves that are heated by the exhaust gases of the engines. The interior of the ship is illuminated by means of detached light units energized by special batteries. Ladders lead from the living quarters to the top of the ship, where they terminate in observation platforms.

Then and Now.
In 1795 Tokio, then known as Jeddo or Yeddo, capital of Old Japan, was destroyed by an earthquake and tidal wave and 250,000 people are said to have been lost. It was years afterward before sailing ships touching at Chinese ports learned of the disaster and brought the news to Europe. May we not marvel at the present when we have the news from wireless and by radio and telegraph a few hours after the 1923 disaster occurred. The readers of the Gazette have been able to get the very latest and fullest accounts of the disaster as well as the news of the Greek-Italian troubles far ahead and more complete than in any other evening newspaper reaching Janesville owing to its leased wire service by the Associated Press with its correspondents in every part of the globe. The catastrophe of tornado, tidal wave, earthquake, landslide, and fire has taken its enormous toll of death and property destruction which can never be replaced. To the Japanese will go out the sympathy and help of the American nation—the first nation of the world with which the Japanese made a commercial treaty and the first Occidental nation of the world to be permitted to trade with this isolated and self-contained Land of Mystery.

Helium gas, which is noninflammable and is not readily explosive, is used in the new air monster. Altogether there are twenty gas cells, each one of which is a separate unit. These cells are made of goldbeater's skins, obtained from the intestines of cattle, and approximately 650,000 cattle were required to supply the skin.
Suspended directly below the hull are the six power cars and the control car. The control car is the nerve center of the ship where are assembled all the operating, steering, shifting and allied all the appliances that govern the manipulation of the great craft. The radio equipment, and complete telephone and voice-tube systems, communicate with all parts of the ship.
Water is carried as ballast for the ZR-1 in bags holding from 500 to 2,000 pounds. When the ship drops too rapidly during a descent her speed can be checked appreciably by dumping this water overboard treating the earth immediately below to something approximating a young cloud-burst.

The Riddle of the Spinning Wheel

By M. E. and T. W. HANSHEW

Being an Exploit in the Career of Hamilton Cleek, Detective
Copyright, 1923, by Doubleday, Page & Co., and published by arrangement
with McClure Newspaper Syndicate of New York City.

"And my brother"—my poor unfortunate brother! He had no share in the crime, I'll swear it. Mr. Cleek, even your magic cannot prove that. Not in the crime actually, Lady Paula, but in the things that he did. A trifling thing, glancing again at the flushed face of the prisoner. "For as a blackmailer I fancy he is something of an artist. That fact you already know to your cost, I fancy. And I think I'm not wrong in saying that it was he who suggested to you the stealing of the wheel."

"I begged him not to, Mr. Cleek! I implored. I did—I swear it. And I never stole the wheel, that I can promise you. I broke in, I remember, hearing her hands together. 'Anton suggested—yes—he wished to destroy it, so that my share of the estate might be greater as widow than that which had been expected to me, and of course he would have a portion of that, too. But I implored him not—that is true. He did not, Anton? You can answer to that? He begged you, and you promised! And he threatened me even with exposure if I did not agree to the preposterous idea. I complied, only upon the promise that it should not be destroyed. But who took it I do not know."

"But I think I can pretty well guess," responded Cleek serenely, with a quick look at Cyril's suddenly flushed face. "Your son, Lady Paula, has much of his uncle's blood in his veins. And he acted, no doubt, upon your advice, and carried the thing through quite successfully. Perhaps he will tell us when he is decided to steal his own father's will—at the instigation of an unscrupulous relation."

Came a slight pause in the telling, meanwhile a startled exclamation broke from Ross Dugan's lips, while every eye in that little assembly fastened upon the pale-faced boy. He broke into quick sobbing, dashing his eyes here and there for possible sympathy.

"Yes, I took it, sir—when Uncle Anton told me, he broke out between sobs. 'It was—just after it had happened. I heard Mother's scream, and then she ran into my room and told me of the dreadful thing that had happened! About half an hour afterward Uncle Anton appeared at the balcony which opens out from my bedroom window, and told me I must steal the will for him. I was terrified—oh, I was—but he threatened me with a pistol and I did it. I was—' That's a lie!" save out the mis-

soner with a maledictory eye upon his unfaithful nephew. "It isn't! It isn't! You told me to get it—just how to get it. That was lying upon the table-top; and so I slipped down in my stocking feet, and waited in the passage until I saw Ross slip out of the room after everyone else had gone back to bed, and—and you had come out, Mr. Cleek, and were talking to Aunt in the ante-room. So I went into the room—oh, it was dreadful with Father lying there—like that—snatched it up and fled back to my bedroom in terror. Uncle Anton was still waiting on the balcony, and when he got it he climbed down the balustrade again and—and—that is all I know. Oh, I wish I'd never had anything to do with it!"

Cleek nodded. "I'm sure you do," he said quietly. "So it was really not fault, Cyril. You acted under considerable pressure. That I'll admit. But it might have been better if you had confined in—someone else after the deed was done. It would have helped clear up the mystery sooner, at any rate. But that cannot be helped now. To proceed with the story, by the way, is the missing link, Lady Paula. I found it in the very ingenious hiding-place—and in the finding, discovered the same time. That was how I happened to get hold of him. He gave me a few tips of quite useful information, and toward upon the matter of the sentence, and helped to lead me finally to the true murderer. So we will hold that in his favor, at any rate. Sir Ross, I'd prefer you to keep that document until it can be placed in the hands of your family lawyer. We don't want any more disappearing tricks for the present, do we?"

"Hardly. Gosh! It's amazing, positively extraordinary how you've found all this out!" threw in that gentleman with deep emphasis. "Please accept my apologies most for those unforfeitable things I said to you, Mr. Cleek. But when a chap's just been practically accused of killing his own father, you understand that, of course."

"You must expect a little heat. That's all right, my friend. Don't bother about it further. Only, I was obliged to throw the scent upon someone other than the real man—or we were lost."

A stenographer—Indigestion may be responsible for your offensive breath, but whatever is the cause it must be cured in order for you to overcome the unpleasantness. In the meantime brush your teeth with peppermint water and use any of the many good antiseptic mouth washes recommended for keeping the gums in a healthy condition.

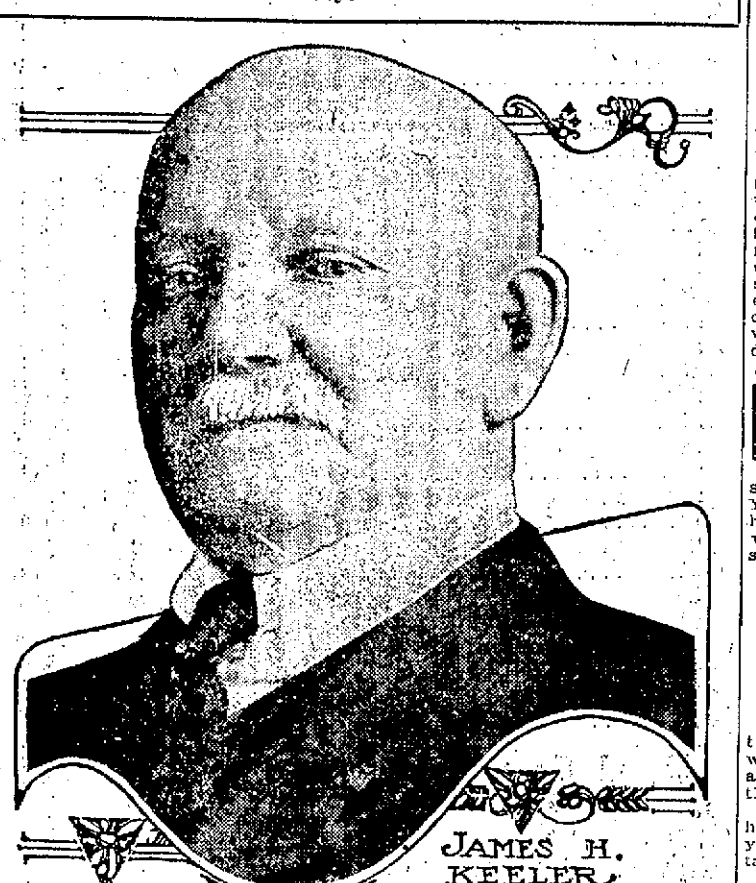

M. E. M.—You are overweighing, reduce to normal, which will lessen the size of the bust. If this is not the case, dress so the bust is less noticeable, which is the only safe way of handling the situation. Wear corsets so they are quite loose for a few inches over the waistline. This lessens the apparent size of the bust.

Y.—Whiteheads are the result of your excessively oily skin. They will disappear as you correct this condition. Eat less of the rich foods, especially those containing oils, and drink plenty of water between meals. Bathe the face in warm water, and after drying it, apply either witch hazel or a very weak solution of benzol and water.

Ellen—Consult a dermatologist about the mole that is increasing over the face and neck.

Curious—Bobbed hair continues in favor, and for a young woman who must accomplish so much with your time, the style is advisable, especially as you say it is very becoming. The only way to prevent sunburn is to protect the skin from the sun. A heavy coating of powder or a veil worn while there is exposure will help some. Cucumber juice makes a good bleach at this season. A slug-

AFTER 14 years of enforced idleness because of ill health, "Uncle Jim" Keeler, widely known Maryland citizen, gained forty pounds, and at the age of 80 years goes back on the job every day. Mr. Keeler gives Tanlac entire credit for his remarkable recovery.

JAMES H. KEELER

"I am now eighty years old, but in spite of that fact I have gained forty pounds by taking Tanlac, and am able to work every day for the first time in fourteen years." is the truly remarkable statement made recently by J. H. (Uncle Jim) Keeler, 7705 32nd St., Mt. Rainier, Md., a suburb of Washington, D. C. "I was in such a bad fix from stomach trouble that my friends gave me up three or four times. Since taking Tanlac I eat and digest everything, and do a young man's work. All I can say is this, I thank God for Tanlac!"

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Heart and Home Problems

BY ELIZABETH THOMPSON.

Letters May Be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: As others have been asking you questions, I have thought many times I'd like to ask one. In the active which men wear, unfortunately I have had occasion to question the modesty of the thin, half-clad attire a few women have adopted. Looking at the matter in a broad way, there are not many women out of the vast number in the world who do things to offend. At all times we have had extremes and for that this age is not alone to be criticized.

Women have taken a stride toward greater freedom. If the pendulum has swung too far in the case of some, I do not consider it a matter for alarm. Openness instead of secrecy will eventually reap rich rewards.

I have not felt that I was an admirer of indecency. The difference between us is that we have different viewpoints. My great plea is to demand the right to think things out for ourselves, and to give others the same privilege.

Dear Mrs. Thompson: We are two bachelors, aged 14 and 15. We would like to know what colors we could wear best. One is a blonde and the other is medium. TWO BOBBLES.

It would be unwise for me to advise you what colors to wear, because so much should be taken into consideration. In the first place, a person with a clear skin can wear clear colors, while they are not becoming to a girl with a muddy complexion.

Usually it is safe to be governed by the color of the eyes. Blue is best for a blonde, and blue eyes. Pink is a blonde color, but it is not a good shade to wear. A medium blonde can usually wear blue, brown, pink and green successfully.

CANNING AND PRESERVING
A Use for Elderberries—Because fruit grows wild is no reason why we should neglect to preserve it if it will serve some good use. Dried elderberries make delicious pie fillings in winter time. Stem the elderberries and spread them out on large platters in the sun; stir twice a day for several days. When thoroughly dry, break them up and pack them in cans or bags. Before using, they should be soaked in just enough water to cover them, for several hours, or sugar added.

Save Corn Pulp for Soup—Select ears which are not yet hard, wash them and slit the grains the length of the cob to scrape out the milky pulp. Place this pulp in a double boiler with no water and heat through, then spread out on a flat cloth on a musing frame to dry in the air—not the sun. When hard enough to rattle, put away in paper bags or pasteboard boxes. The scraped cobs may be dried and used for fuel. The dried pulp makes delicious soups.

SUGGESTION
Keep Your Curtains White—Snap fasteners on window curtains, one-half of the snap in each lower corner and the other part about 16 inches above it, will save many launderings. While airing a bedroom, snap up the curtains and they will not be soiled by blowing against the screens.

Then they got to boasting. Said one: "My papa is a numismatist. You should see his collection of coins."

Not to be outdone, his playmate came right back: "That's nothing; my mamma is a kleptomaniac. She has such a beautiful collection that they wanted it at the police station."

A woman applied for a job as chambermaid at the Waldorf-Astoria. The interview was very satisfactory and the employment manager concluded by asking for her references. "No references," cried the woman, "I have no references don't do me justice and I left 'em home." She got the job—Judge.

To Make Hairs Vanish From Face, Neck or Arms (Beauty Culture)

Keep a little powdered, delicate handy and when hairy growths appear make a paste with some of the powder and a little water, then spread over hairy growths and after 3 or 5 minutes rub off, wash the skin and it will be entirely free from hair or bluish. This simple treatment is unfeeling, but care should be exercised in the use of genuine delicate, otherwise you may be disappointed. —Advertisement.

TODAY'S RECIPES

Ham and String Beans—Take half a small ham, prepare for baking and place in fireless while doing breakfast work; at noon partly cook beans in salt water, then take meat from cooker, remove ham from broth, and add beans. Finish on stove.

Lettuce with Cream Dressing—Half a head of lettuce arranged on plate. Into one-half cup of cream put one-half teaspoon salt, one-quarter cup sugar and two tablespoons of vinegar; mix well and pour over lettuce just before serving.

Potato Hints—Boil enough potatoes to make one cup mush. Into these hot mashed potatoes put one cup sugar, one large teaspoon salt, one cup shortening, and when lukewarm add from one to three well-beaten eggs, one cup of liquid yeast, and one pint of scalded milk. Add enough flour to make a soft dough and let rise for three hours. When light cut out, put in butter, sugar, and let rise until the bun is twice their original size—usually one hour will suffice. Brush top with melted butter and bake. They will keep fresh and moist for several days.

Mrs. Evans Freed from Female Weakness by Lydia E. Pinkham's Vegetable Compound

Detroit, Michigan.—"I had female weakness with pains in my back, and I could not stand on my feet for any length of time. I was working in a factory but was too much on my feet. A friend recommended Lydia E. Pinkham's Vegetable Compound to me, and I can hardly believe it myself that I am well. Oh, it is a grand thing to have my health! I feel well all the time and can go out like other women and not feel that awful torture. When I took your medicine first I thought it should cure after the first bottle, but I am glad my husband kept me at it. I have had nine bottles and now I am well."—Mrs. JENNY EVANS, 1504 Lafayette Blvd., Detroit, Michigan.

If you are suffering from displacements, irregularities, backache, nervousness or other forms of female weakness, you should take Lydia E. Pinkham's Vegetable Compound.

LATEST MARKET REPORT

GRAIN

Chicago Review.—Influenced chiefly by an advance in Liverpool, quotations, wheat prices here averaged a little higher today during the early dealing. Traders were disposed to associate the Liverpool advance with reports that France had accepted in principle Germany's offer of economic accord between the two countries. Trade here was of a moderate volume. The opening which varied from unchanged figures to the higher, with Sept. 1923 at \$1.02 1/2 and Dec. \$1.00 1/2 to \$1.01 1/2 was followed by a slight rally. Scarciness of immediate supplies tended to lift the price of September corn, but favorable crop reports made the later months easy. After opening at a decline to 1 1/2c advance, Dec. 1923 to 65 1/2c, the market underwent a moderate setback from the initial range.

After the corn sympathized with wheat weakness, the close was unsettled, ranging from a net decline to a net advance, with Dec. 1923 to 43c. Gains paralleled the action of corn, starting 1/2c to 3/4c higher, Dec. 43 1/2c and showing some loss.

Provisions averaged a little higher in line with the rise in wheat, but the visible supply had a bearish influence, so too did absence of export demand.

One-Leaded Milwaukee Wins in Mark Breaking Time

Milwaukee Grabs Meet With Madison Second: Locals Placed Third

In the time of 22 min., 57 3-5 sec., John Polk, Milwaukee's one-legged swimming star, trudged to victory in the mile marathon of the second annual state Y. M. C. A. meet here Monday morning.

Polk's time was 1 min., 47 2-5 sec. faster than the record of 24:45 made at Milwaukee last year. The course, however, was estimated at approximately 250 feet short of the full distance. The world's record for the mile is 23 min., 30 1-5 sec.

Milwaukee swimmers topped the majority of honors in the big event, but were followed closely by Madison. The Cream City boys ran off with seven firsts, three seconds and three thirds. Madison took two firsts, five seconds and four thirds.

JANESVILLE folks who did not get up the river on Monday to see the state amateur swimming carnival missed exciting competition and a chance to view some of the state's best swimmers in action. There wasn't an event of the entire 19 that was not contested. The tournament demonstrated the absolute need here of better facilities for handling crowds at the beaches and for the conduct of such an event. There is no doubt that hundreds did not attend the meet simply because they knew beforehand that it would be difficult to find a comfortable place at Goose Island from which to watch. Riverside park is the city's natural playground. When that is equipped with adequate and modern docking, and swimming areas, and accurately measured courses, Janesville can force further ahead in sports. The value of these things is not estimated in the dollars and cents of their cost.

Lady May C. captured \$1,000 Duluth purse for 200 pace, opening Great Western Circuit races at Minnesota state fair.

Gertrude Ederle, New York, set new world's record for 500-yd. short pool swimming, beating and broke six records for shorter distances in the same race when, six min. 52 sec., former record being 6:55 4-5 by Helen Whitnright.

Cherry Pie, one of Green Tree stables, carrying 113 lbs., ran fastest mile ever run by horse in winning Jerome Handicap in 1:35 2-5.

Diamond Sparkles (By A. P.)—Giants broke even Monday. Cincinnati lost and Pirates crept up as serious contenders. Reds now 3 1/2 games behind Giants, and Pirates one game behind Reds. Chicago, in fourth, is out of sight. Giants beat Boston, 2-2, and Pirates beat St. Louis, 4-2. New York winning after Bentley hit roller along line and beat McGinnis to first with two out while Stengel scored. Philadelphia acquired one side of doubleheader in Brooklyn, 4-2, while Robins took other, 5-4.—Rings beat Brooklyn to six hits. Yanks, Cleveland and Detroit each won twice. Indians defeated St. Louis, 4-2 and 5-2.—First game Uhl's 24th victory of season.—Speaker hit homer with two on.—Yanks had their best win, first from Athletics, winning in 13 innings, 2-1.—Second game won with three run rally in eighth.—Tigers won from White Sox, 14-4, but second was nip and tuck battle, with winning run coming in last inning, 6-5.—Pittsburgh Nationals won from Cincinnati, 8-2.—Rogers Hornsby, cracking out 15th homer, enabled St. Louis to shut out Chicago, 1-0. In first of doubleheader, which was pitching duel between Stuart and Keen.—Second game went 10 innings before Chicago evened series by scoring on run when O'Farrell cracked single with bases filled, 5-4.—Boston Americans and Washington split, Boston taking first, 5-4, and Senators second, 7-3.—Merrill made first big league appearance in second game, pitching for Senators, but was relieved in sixth by Russell.—Sabo Rutledge and Josh Taylor, both of whom got only one hit, but it proved worth while as it resulted in breaking up pitching duel and giving New York close victory.

Ruth opened inning with double, went to third on hit, and scored winning marker on infield out.

Harold Osborn, Chicago, scored 7,350.11 points in national demolition for new world mark.

Carbie Walker, Cleveland, who swam Lake Erie, forced to quit English Channel when within 3 1/2 miles of finish.

J. O. Branson, Kansas City, wins 100 mile motorcycle race.

Scraps About Scrappers—Mike Dundee, Rock Island, won newspaper decision over Eddie Anderson, Dayton, at Daytonport (10).—Ernie Goosen, Los Angeles, won newspaper decision over Mickey O'Dowd of Muncie, Ind., at Chicago (10).—Billy Hunt, Los Angeles, lost on foul to Earl Franco, Los Angeles, at Miami (10).—Jimmy Delaney, St. Paul, light-heavyweight, won from Loughead of Philadelphia in 12 round bout at Oklahoma City Sept. 14.—"K. O." Mares, Cincinnati lightweight, won Judge's decision over Jack Zylve, Pittsburgh, at Columbus, O. (12).—Bud Taylor, bantamweight, outpointed Harry Gordon, New York, at Terre Haute (10).

United States retains Davis tennis cup.

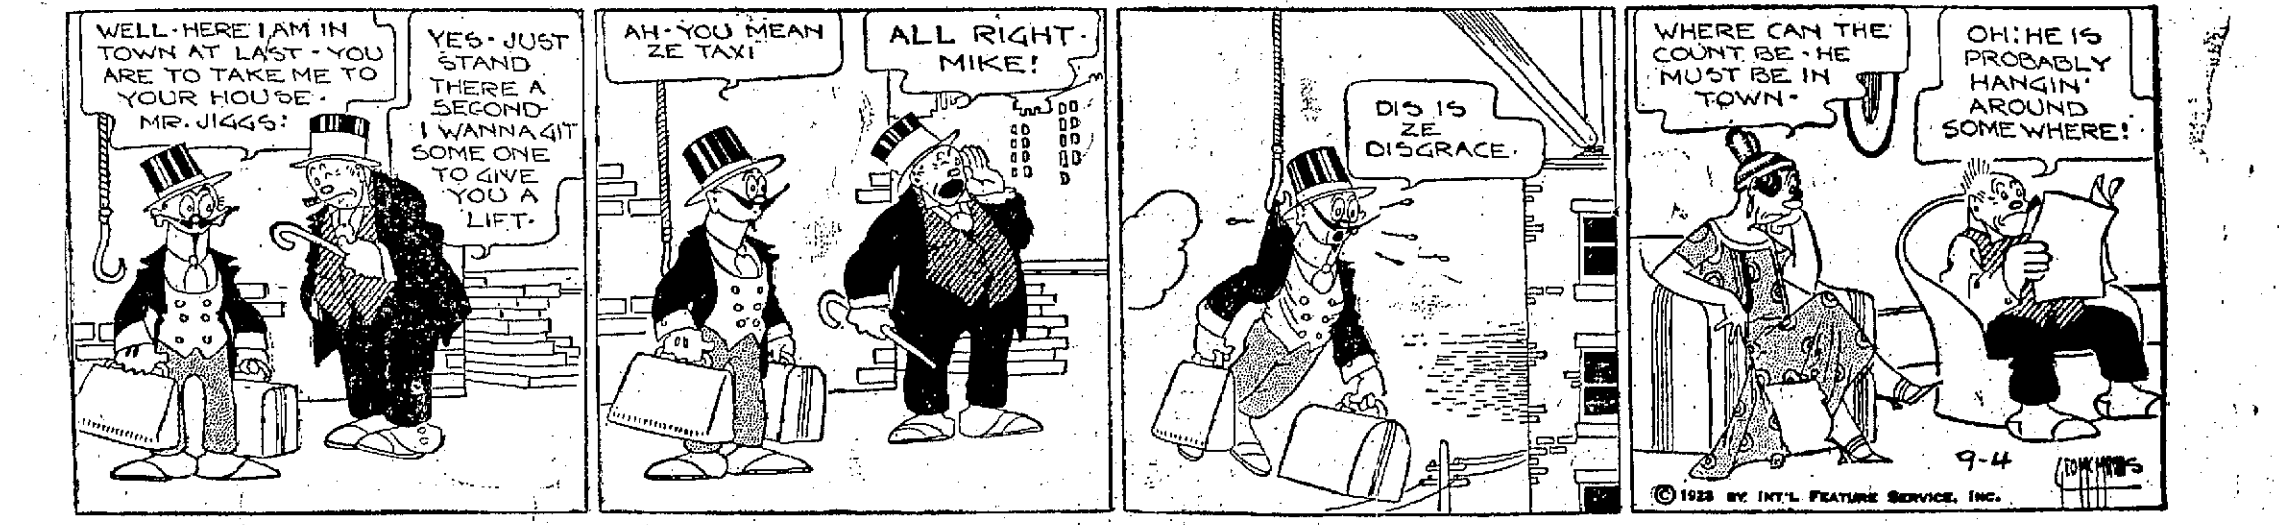

Lee Worthy, White driving, wins free for all on grand circuit.

Miss Directed, Wilson up, sets new mark on Elkhorn track of 2:11 1/4.

HICKEY AND CLARK WIN AT HORSESHOES—Frank Hickey and Morris Clark won the doubles horse shoot mock at the fair grounds Labor day morning, losing only one game. R. Paske and George Allen, Otto Bush and Ted Carey tied for second. In the playoff, Paske and Allen won, 50 to 49. A large crowd attended.

FIRST GRID GAME—Ironwood, Mich.—Ironwood opened the football season Labor day, by defeating Superior, 22 to 0. Superior didn't have a chance. Ironwood's lineup included Paul Des Jardins, Eddie Novak, George Simpson, Paul Gobel, Hal Hansen and Marty Norton.

BRINGING UP FATHER

Janesville Downs Fort Behind Bick by 3 to 1

[SPECIAL TO THE GAZETTE.] Fort Atkinson—Featured by the twirling of Charlie Bick and spectacular catches in the field, the Janesville Boosters trimmed Fort Atkinson, southern Wisconsin league winners, here Monday afternoon, 3 to 1. Earl Whitford of Johnston was in the box for the Robins.

The Janes scored in the first, third and fourth, and thereafter connected but twice with the pill. Fort did not get a center until the last of the ninth, when they shot one over on Brown's double and Mitchell's single. Until that time, Bick had allowed them but two hits.

Errors counted in the making of each of Janesville's runs. Whitford made a beautiful catch in the ninth in right field, doubling Mitchell's off first. In the fourth, Liallet pulled down a long hit by running from left to center field. Eric was there also with superb fielding.

CORFU ATTACK NIPS WEDDING

New York.—The Italian shells which fell on the Greek island of Corfu were responsible for the interruption of the wedding arrangements of two Near East Relief workers, who, 20 minutes before the bombardment commenced, were to have left for Athens to be married the next day. Col. Stephen Lowe of St. Louis and Miss Emma Wood of Baltimore at Sinia, Ont., were on the point of sailing when the Italian authorities refused them permission to depart.

St. Patrick's Win from Rockford, 7-4

St. Patrick's of Janesville trimmed the Rockford St. Patrick's Monday at The Pink, 7 to 4. The game was tied in the fifth, when Rockford scored one, and then the Janesville boys took the lead with four tallies. Don Dawson was withdrawn in the fourth on account of illness, his brother, Mike, finishing the game. Rockford replaced Burns by Leach in the fifth. It was a pitchers' duel from the sixth on, neither side scoring.
